EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert McCutcheon on 02 February 2005.

The application has been amended as follows:

Claims:

- 34. (Canceled)
- 35. (Canceled)

Allowable Subject Matter

Claims 1-4, 6-9, 11-20, 22-25, and 27 are allowed.

The following is an examiner's statement of reasons for allowance:

As previously stated in the advisory action filed 28 September 2004, claims 1-5, 6-9, 11-20, 22-25, and 27 were allowable over Novas, however, the new limitations presented in claims 28-35 would require further search and consideration. Because claims 28-35 have been cancelled, all claims in the present application are in condition for allowance.

In particular, the limitation directed toward *terminating a processing period based on the currently computed confidence level and an amount of time remaining in said processing period indicate that the certain cadence is unlikely to be detected before reaching the end of said processing period* is not taught by Novas. To the contrary, Novas teaches computing a measure of fit, i.e. *confidence level*, and declaring the presence of tones based on this measure of fit and ending the processing period. Alternatively, if a tone is not detected before a time out of 30-seconds, the processing period is ended. However, there is no process to compare the measure of fit to the remaining amount of time in the processing period in order to effectively cut the processing period short. As such, independent claims 1, 6, 11, 14, 17, and 22 and all of their dependent claims are allowable over Novas.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
